

27 July 2020

The Public Investment Corporation (PIC) invests funds on behalf of public sector entities including the Government Employees Pension Fund. The organization is the largest investment manager in the country and the continent. Applications are invited from dynamic individuals for the following challenging position:

**Position: Cloud Infrastructure Engineer
Job Grade: * D1 – D3
(Ref:27/07/20)**

Salary: All-inclusive remuneration package negotiable

Centre: Public Investment Corporation, Pretoria

Requirements:

- BSc or BTech in Information Technology; Computer Science or a related discipline; professional certification, (e.g. Microsoft Certification).
- Minimum of 3 - 5 Years of experience in IT Infrastructure field
- Proven experience as a Cloud Infrastructure Engineer, or similar role.
- Relevant operational experience in running and maintaining enterprise systems within a medium organisation.
- In-depth knowledge of virtualised systems, networks (LAN, WAN) and Azure cloud computing.
- Technical experience with cloud and hybrid infrastructures, virtualisation, database migrations, and technology management
- Experience in the administering of Office 365, Azure and related cloud platforms.
- Sound knowledge in building and running elements of disaster recovery, backup and system availability.
- Experience with Commvault backup solutions.
- Experience with SCCM, SCOM, and configuring images for laptops/desktops.
- Experience with GPO / Azure Active directory/ DHCP.
- Familiarity with various operating systems and platforms. Windows 2012 and 2016 / 2019

Duties:

- Collaborate with other engineers in developing complex end-to-end enterprise solutions on Microsoft 365.

- Perform system monitoring and analysis, performance tuning, troubleshooting and escalating issues, including proactive problem resolution and continuous improvement
- Collect and analyse operational data (incident and change records) to identify emerging trends and assist with problem resolution and increased server availability
- Configure and manage Virtual Network in Azure, enable Azure to serve as a part of PIC network
- Drive identity, access and configuration management, and monitoring Azure
- Establish and implement monitoring and management infrastructure for both availability and performance management
- Work with various application and infrastructure teams to improve internal processes
- Use cloud technologies to solve customer problems
- Monitor Azure active directory health
- Manage the PIC storage
- Deploy and train users on Microsoft Teams, InTune and SharePoint

Key Competencies:

- Good communication Skills
- Able to work overtime when needed
- Can handle pressure
- Can multi-task
- Problem analysis
- Able to work unsupervised
- Customer focused and team player
- Attention to Detail
- Interpersonal Relations
- Time Management skills and the ability to prioritize tasks

With the PIC having topped the R2 trillion mark in assets under management and in the process of entering the global investment market, it is the best asset manager any serious professional would want to be associated with. It is also one of the better places from which one can serve South Africa.

Closing Date: 31 July 2020

PIC is an equal opportunity employer.
