- At least 8 -10 years relevant experience
- Masters in Econometrics, Economics/ Finance & Investments, MBA and or any other relevant Master's degree or professional qualifications in commerce is preferred
- Research Experience and expertise in one or more key sectors of the economy

Duties:

- Provide Economic input into Investment Strategy formulation, strategy implementation and strategy review & adaptation
- Provide high quality economic research and analysis
- Monitor and report on global, country and continental sectoral economic developments, and analyse their impact on the private sector in South Africa, and PIC's business in particular
- Monitoring of economic activities and formulate economic outlook for PIC
- Macro overview and impact on various asset classes as well as investment strategy
- Developmental economics research
- Macroeconomic impact analysis of PIC investments
- Data mining, maintenance and PIC customised modelling

Competencies and skills:

- Financial markets and economic forecasting
- Macroeconomic modelling

- Understanding of the markets and sectors
- Strategic planning
- Developmental and economics and deep understanding of sectors across the continent
- Background in both equity and fixed income analysis
- Excellent communication skills
- Negotiation Skills
- Time management
- Performance and Result oriented
- Ability to deal with pressure/stress
- Stay abreast with latest trends in the economy
- Problem solving
- Ability to evaluate market intelligence
- Customer service orientated
- Management Skills
- Analytical thinker
- Excellent presentation skills

With the PIC having topped the R2 trillion mark in assets under management and in the process of entering the global investment market, it is the best asset manager any serious professional would want to be associated with. It is also one of the better places from which one can serve South Africa.

Closing Date: 20 August 2019

PIC is an equal opportunities employer.
