## **Ordinary Resolutions**

Resolved that the sale by the company of its entire shareholding in Altur Investments (Proprietary) Limited ("Altur") for a cash consideration of R6 773 842 561 pursuant to the repurchase thereof by Altur in accordance with the provisions of the agreement amongst the Company, Holcim Limited, Altur and Afrisam Consortium (Proprietary) Limited dated 20 April 2007, be approved.

Vote

Authorising and approving directors to proceed with an alternate disposal,

These resolutions are to give effect to the disposal of Aveng's 45,65% stake in Holcim South Africa. The transaction results from a strategic review by the Aveng Board following Holcim's announcement in August 2006 of a proposed Black Economic Empowerment transaction which will result in Holcim SA being a majority black controlled enterprise. The disposal by Aveng of its shares in Holcim SA paves the way for a transaction that will see AfriSam, the broad based BEE consortium, acquire 85% of Holcim SA.

Approval of the acquisition by Exxaro
Base Metals (Pty) Ltd, a wholly-owned
subsidiary of Exxaro, of a 26%
shareholding in Black Mountain Mining
(Pty) Limited from Anglo Operations
Limited.

The transactions proposed are that Exxaro Base metals had exercised the Black Mountain Option, in terms of which Exxaro Base metals would acquire 26% interest in Black Mountain, and KZN Sands had exercised the Namakwa Sands option in terms of which KZN Sands would acquire Namakwa Sands.

Company Name PIC % Shareholding Resolutions Cast Comment

This transaction will position Exxaro strategically as one of the world's largest suppliers of titanium dioxide feedstock and zircon and strengthen its position in the South African zinc market.

Exxaro already enjoys a prominent position in the mineral sands business, with operations in Kwazulu-Natal and a 50% ownership in the Tiwest Joint Venture, a fully integrated mineral sands and pigment producer in Western Australia.

Threshold to approve section 228

F

disposals

The PIC voted in favour of all above resolutions in order to give effect to the proposed BEE transaction.

## **Summary of the Deal:**

- MVL has been trying to do a deal that ensures it becomes black controlled, as agreed with AngloPlats, which in turn needs this to ensure that it earns the full BEE credits for having originally sold 50% of Booysendal to Khumama (who on-sold it to MVL, who in turn sold an option on it to Northam).
- The deal proposes introducing Afripalm as the second major BEE shareholder (after Tokyo Sexwale's Mvela Holdings), which will put voting control (of 50.6%) in black hands.
- The Department of Minerals and Energy is fully behind this deal that will ultimately result (once MVL gets control of Northam) in a black-controlled operating platinum player.
- Afripalm will pay R1.168bn in cash for 40 million MVL ordinary shares (R29.20 per share, being a 15% discount to the 30-day VWAP on 5 December 2006 announcement day).
- The discount being given is for 2 reasons:
  - o the lock-up (i.e. Afripalm cannot encumber or sell its MVL ordinary shares before 1 May 2014); and
  - o for the exclusive option that Afripalm has given MVL that all mining-related opportunities that may accrue to the Afripalm group globally, will have to be offered to MVL first.
- Afripalm will pay R700,000 in cash for 35 million MVL A ordinary shares (par value of 2c per share). These

Company Name PIC % Shareholding Resolutions Cast Comment

shares will only have voting rights equivalent to ordinary shares, but have no other entitlement whatsoever. On 1 May 2014, all A ordinary shares in issue will be deemed to have been repurchased by MVL at par value.

## Conclusion

- The proposed deal is critical for the future viability of MVL as a BEE company that can ultimately get control of Northam and become a black-controlled operational platinum player.
- While the discounts offered to Lazarus Zim may appear generous, the reality is that without this deal, MVL runs the risk that AngloPlats exercises its call option on 17.5% of MVL's holding in Northam at only R8.60/share (i.e. a 84% discount to the current market price) and MVL will lose R1.8bn in value or 23% of its market cap.

		Re-election of the following directors:  • DR WT Marais  • RR Masebelanga  • TR Scott  • DL Eggers  Confirmation of non-executive directors' remuneration for the year ended 31 March 2007	F	This is a retrospective approval of amounts already paid. Further to this, there are concerns about the chairman's fees. In addition to the usual fees, Mr Crosse, received a significant additional fee for his "services as non-executive chairman" as well as a "performance bonus". Especially the latter is highly unusual in a non-executive director's remuneration and his total remuneration package is very similar to those of the company's executive
