INTRODUCTION

The PIC Listed Investment thesis is underpinned by an unwavering commitment to Environmental, Social and Governance (ESG) demonstrated by signing up to the United Nations Principles of Responsible Investing (PRI), the United Nations Global Compact (UNGC), Code for Responsible Investing SA (CRISA), and Sustainable Development Goals (SDGs).

As part of a growing best practice drive to relate ESG management to the financial performance and growth of investor and investee companies, the PIC has embedded ESG in its investment processes, to monitor, measure and report on the impact of its ESG activities.

The PIC further supports the country's developmental agenda by embracing transformation as an investment driver. As a result the PIC requires that investments fulfill this mandate to drive the transformational strategy through the Broad Based Black Economic Amendment Act no. 46 of 2013.

In complying with Principles 2 and 6 of the PRI: *"we will be active owners and incorporate ESG issues into our ownership policies and practices"* and *"we will each report on our activities and progress towards implementing the principles."* This report was prepared in order to disclose our active ownership activities through proxy voting at AGMs/GMs.

PROXY VOTING

The following table lists all the company meetings held during the months of October 2017 to December 2017 where the PIC exercised voting rights on behalf of the Clients.
