The Fund reported a 46% increase in overall job creation for the period ending 31 March 2018. A few surmountable challenges exist at the Fund. These include lag in transformation at the Fund's South African companies, allegations of mismanagement and misappropriation of funds and high staff turnover. A process to appoint a new Manager to take over Abraaj Africa Fund and the revision of the governance framework are underway to ensure that the Fund delivers on its objectives.
